# Heart to Heart Conference & National Lifesaver Defibrillator Awards

**Education and information  
to help save lives**

### Royal College of Pathologists

2 Carlton House Terrace, London SW1Y 5AF

Saturday, 22nd October, 2011

Certificates of attendance awarded on application.

### Statement by Dr Jerry Nolan, of the Resuscitation Council (UK)

After cardiac arrest, the chance of survival diminishes rapidly if attempted defibrillation is delayed. Wide availability of automated external defibrillators (AEDs) reduces the time to defibrillation and increases survival.

# Heart to Heart: Education and information to help save lives

Royal College of Pathologists, 2 Carlton House Terrace, London SW1Y 5AF

## Royal College of Pathologists

The Royal College of Pathologists, 2 Carlton House Terrace is tranquil, with the College's elevation set back from The Mall providing magnificent views across St James's Park. Its prestigious location and stylish interior is very impressive facing down Carlton Gardens towards Pall Mall. Access by public transport is unrivalled with the College being within walking distance of Piccadilly Circus, Charing Cross, St James's Park, Green Park and Victoria train stations.

## Honoured Guest

**Dr Andrew Lockey** is Honorary Secretary of the Resuscitation Council (UK). He works as Consultant in Charge of Accident and Emergency at Calderdale Royal Hospital. Along with the British Heart Foundation, Dr Lockey is leading the project for the Resuscitation Council (UK) calling for Emergency Life Support (ELS), including vital CPR, to be a mandatory part of the National Curriculum in England. He believes Secondary school students should be taught ELS from year 7, and skills should be refreshed every year until students leave school.

## Conference and Exhibition

- Are you a nurse, doctor, first aid trainer, first responder, member of the emergency services or other personnel who would like to know more about Inherited Cardiac Conditions and SADS (Sudden Arrhythmic Death Syndrome)?
- Would you like to hear more about Services available to people affected?
- Are you interested in learning more about the British Heart Foundation working in partnership with the Resuscitation Council (UK) to campaign for Emergency Life Support (ELS) skills to be taught to every child in the UK and how you can help?
- Are you a family living with a cardiac condition or who has been affected by SADS?
- Would you like to learn more about targeted protection from sudden cardiac death?
- Would you like to meet like-minded individuals and make contacts and network?
- If the answer is 'Yes' to any of the above, register for the Heart to Heart conference.

## Awards Dinner

The speedy use of a defibrillator along with CPR can save a life. The cardiac charity SADS UK holds the annual National Defibrillator Lifesaver Awards to honour people who have taken lifesaving action.

Saturday, 22nd October 2011

## SADS UK

### Prevention of cardiac arrest

The charity provides heart monitors and event recorders to medical establishments to detect abnormalities of the heart rhythm, to enable speedy evaluation, referral and treatment of patients.

SADS UK distributes The Warning Signs leaflets in the community and to training organizations to prompt people who may experience symptoms consistent with a cardiac condition to seek medical advice.

### Emergency Care

SADS UK provides Automated External Defibrillators to schools and organisations in the community and organises training of the equipment.

**SADS UK holds the annual National Defibrillator Lifesaver Awards.**
