

Life Save Station

COMMUNITY PUBLIC ACCESS DEFIBRILLATOR BACKING BOARD

SADS UK provides backing boards for defibrillators to highlight their location.

The backing board lets the general public know that they can use the defibrillator if a person is in suspected cardiac arrest – they don't need any training.

LIFE SAVE STATION

Anyone can use a defibrillator. No training necessary.

HELP SAVE LIVES
For an unconscious person NOT breathing normally.

Call 999 → **Start CPR**

Switch on defibrillator → **Follow its instructions**

If someone has collapsed and are not breathing call 999
Advise call handler of location. If locked cabinet ask for access code
Take defibrillator to patient
Switch on defibrillator and follow instructions
The emergency call handler will remain on line to help you
Continue with CPR and to follow the defibrillator instructions until Ambulance arrives

GoodSAM
For future information:-
The GoodSAM app shows you where defibrillators are located.
Download the GoodSAM App - www.goodsam.org
If you have suitable medical training volunteer with GoodSAM.
